MAISON LAURINO
FRUIT JUICES & NECTARS

Mark Cooper

The Love of the fruits

In continuation of their business development, following up on multiple requests from Michelin star Chefs who were looking for higher quality, luxury looking packaging, **Maison Laurino** was asked to develop a range of fruit juices and nectars for the Bar and the Mini Bar.

They accepted only at one condition: to have the Chefs work with them to finetune, adjust the recipes, making sure that the texture, balance of sweetness, acidity and colors are absolutely in line with the expectations of the 5 star hotels clientele.

After 2 years working on that project, we are pleased to finally present you this range: Sip on and enjoy!
