

READING SODA WORKS

BOTTLING COMPANY

We are a craft soda house with distinctive soft drinks. As a family business, we remain close to the production process and strive to source local ingredients. Keeping our prices more than competitive is one way that we celebrate our customers!

BUBBLING BEYOND EXPECTATION

Established in 1921 each bottle of Reading Soda contains a precisely handcrafted soft drink made with 100% pure cane sugar. Using a pinpoint carbonation process guarantees our sodas and seltzers stand the test of time.

READING SODA WORKS

BOTTLING COMPANY

Our heritage all natural flavors are clean, crisp and never too sweet or artificial on the palate. Despite being made in small batches our product has incredible consistency.

Our signature glass bottles still have that vintage look and feel as well as being eco-friendly and of course sustainable. Glass and soda are a happy marriage never losing purity or compromising flavor.

The Reading Draft brand's flagship product was Birch Beer, which originally was served in draught style barrels, hence the name and icon on the bottle. It has largely remained unchanged since inception and for good reason. Customers attest that it is among the best Birch/Root Beer they've ever had. No wonder these are our top sellers!

Botanicals are a great new low calorie / low sugar addition to our catalog. The botanical hydrosols are sourced from a farm in Dotlestown, PA and are certified organic. An excellent base for jazzing up cocktails or mocktails.

CANNAFIZZ

A bespoke newcomer to our product line is CBD infused Cannafizz. Not only are these sodas and seltzers delicious but they also help you feel good. CBD oil is proven to help reduce inflammation, manage pain and bolster immunity.

We partner with a premier industrial hemp company for CBD oil. The oil is derived from organically grown hemp, one of the best on the market. It is rich in terpenes and has a high concentration of CBD.
